Sub-processors

Jamf may engage vendors to provide services on our behalf. Any vendor who may process Customer Content, as defined in Jamf’s [Software License and Services Agreement](#) (SLASA), are considered sub-processors and are disclosed below. As set forth in Jamf’s [Data Processing Agreement](#) (DPA), Jamf has adequate data transfer mechanisms in place with each sub-processor.

| Sub-processor | Location(s) of processing | Purpose of processing |
|---------------------|---|-------------------------|
| Amazon Web Services | United States | Cloud hosting |
| Amazon Web Services | Australia, Brazil, Canada, France, Germany, India, Ireland, Italy, Japan, Singapore, South Africa, South Korea, Sweden, United Kingdom, United States | Regional edge services* |

*Processes data for Web Protection functionality

Jamf may use additional sub-processors for customer support – see the sub-processor listing for Jamf Support.

New sub-processors will be communicated to all customers.
