

# Classroom Services

## Accelerate Learning in the Apple Classroom App

### Jamf and the Classroom

Apple provides one of the best learning experiences for students. And, Jamf puts that experience right in your hands!

Apple's new options for education in iOS 9.3 are just plain awesome! From the Classroom app to Apple School Manager, Apple brings a fresh approach to integrating with existing infrastructure and content delivery systems. Jamf is right there, with support on the day these new features become available. We understand you have other demands on your time and just need someone to come in and get you started.

# 1

#### Classroom

Students log in with their credentials on an iPad and get access to their books, apps, and documents.

# 2

#### Apple School Manager

Administrators log in and assign content to students.

# What's Included

When you engage Jamf's **Classroom Services**, you get the following:

Best practices training for new JSS options

Training and documentation on Apple School Manager

Setup & training on the Classroom app

Integration with supported Student Information Systems, leverage iTunes U for getting users into Apple School Manager, or build CSVs for importing users

Assistance with Managed Apple IDs, and simple passwords for younger students

Training on creating and managing classes in the JSS

Setup Apple School Manager to sync with the JSS

Documentation for teachers on managing classes using Apple School Manager

Integrate VPP and DEP tokens for Apple School Manager support

## A highly personalized shared iPad experience

At Jamf, we make Apple's iOS 9.3 dream your reality. You can now preload apps and show them or hide them based on the user. You can also build a unique home screen layout, so that each user has an exquisitely crafted experience with their iPads.

Reduce the impact of the learning curve to do all of this with Jamf's Classroom Services, an accelerator program to get you ready to provide the best education experience available into the hands of your faculty and students.
