Simplified Workflow for Apple's Volume Purchase Program (VPP)

This guide walks you through the necessary steps for assigning apps to your users using the Casper Suite.

1 PREPARE   **2** PURCHASE   **3** DEPLOY

PREPARE

1. **Enroll in Apple's Deployment Programs**
- Create a shared Apple ID for the program
- Get your Apple Customer Number to sign up

2. **Link VPP to JSS**
- Download your VPP Token and upload to JSS

3. **Ensure users have Apple IDs**
- Choose how to create Apple IDs: iTunes, Web, Device
- Choose what email address to use: personal or institutional
- If Under 13, use Apple's Under 13 Program

PURCHASE

1. **Purchase apps from the VPP Store**
- Choose what apps to purchase
- Choose how to pay: Credit Card, PayPal, or Purchase Order
- Completed purchases are automatically added to JSS

DEPLOY

1. **Assign app licenses to users**
- Scope who should get the App License (VPP Assignment)
- Choose what app they will receive

2. **Prepare apps for deployment**
- Choose how to deploy the app: Self Service or Push Deployment
- Scope who should get the app

3. **Invite users to participate in deployment**
- Scope who should get the invite
- Choose how they get the invite: Prompt, Self Service, or Email
- User is then asked to sign in with Apple ID and accept VPP Invite

4. **Devices boot up & apps are downloaded**
- DEP automatically enrolls and supervises devices
- Users receive and accept their invite
- Licenses get assigned and apps are deployed
