Jamf Routines
Sub-processors

Jamf may engage vendors to provide services on our behalf. Any vendor who may process Customer Content, as defined in Jamf's Software License and Services Agreement (SLASA), are considered sub-processors and are disclosed below. As set forth in Jamf's Data Processing Agreement (DPA), Jamf has adequate data transfer mechanisms in place with each sub-processor.

Sub-processor	Location(s) of processing	Purpose of processing
PMG.net	United States	Workflow management

Jamf may use additional sub-processors for customer support – see the sub-processor listing for Jamf Support.

New sub-processors will be communicated to all customers.
