

Jamf Premium Cloud

Designed to give you the flexibility you need from the cloud.

Leave the infrastructure to us

As the number of devices in your environment increases, so does the need for scalable, globally available services to manage them. Jamf offers customers the ability to host their Jamf Pro server in the cloud. Jamf Premium Cloud takes that a step further.

Jamf Premium Cloud is an add-on for cloud hosting that provides you with flexibility and control over your server. Choose when you'd like to upgrade, whitelist IPs and more. Get even more out of your Jamf Pro server.

Fast facts about Jamf Premium Cloud
