

Jamf Premium Services

A dedicated team of service professionals to help optimize your Jamf Pro investment.

Serving as an extension of your team

Your organization is unique. You wear a lot of hats and need to ensure your Apple initiative is a success. We've got you covered. Jamf Professional Services Engineers provide onsite and/or remote service work to focus on your priorities – from Jamf Pro configuration and workflow design, to implementation strategies, security management and even personnel education. Our project coordinators then provide unified oversight of account activities and facilitate communications and activity tracking among the project team.

Available in different levels to match your unique needs and budget, Jamf Premium Services complement our legendary customer support to offer onsite access to a dedicated team of Jamf specialists.

| | SILVER | GOLD | PLATINUM |
|---------------------|----------|----------|----------|
