Unified visuals and writing express the Jamf brand

Branding excellence is achieved through a combination of activities that we define as the **Whole Product Experience**. Applying our brand attributes and visual elements consistently serves to extend and enhance our Whole Product Experience promise.

This document provides both visual and written guidelines for implementing the Jamf brand. These guidelines will help echo the Jamf brand experience by outlining common usages and specifications.

Corporate logo

The full corporate logo features both the icon and the wordmark. These two elements should remain in a fixed relationship and not separated or altered. The Jamf icon and wordmark may be used separately only by Jamf for approved purposes. Whenever possible, the full logo should be used to represent the company.
Clear space

The Jamf logo should not compete with other text, graphics or logos. The logo must be surrounded on all sides by an appropriate amount of clear space - a height equal to the ‘m’ in the Jamf wordmark, as shown below. This clear space should be proportionately maintained when the Jamf logo is adjusted in size.

Logo construction

Jamf logos have been designed systematically, as outlined below. When creating any new logos, adhere to this construction methodology.

*Use only approved logos created by Jamf.*
Logo treatment

The following examples represent only a small sample of potential logo misuses. To ensure consistent representation of the Jamf logo, never attempt to re-create it. Always use approved artwork.
jamf

Typography
Jamf employs two sets of fonts. The primary font consists of a headline font—Museo Slab—and body font—Proxima Nova—available through Adobe’s Typekit platform. Use of these fonts is limited to the Jamf marketing and development teams. For general usage Helvetica Neue may be utilized—the font is freely available in both macOS, and iOS. Example use cases for using Helvetica Neue include emails, Keynote presentations and letterhead communications.

Icons provide an at-a-glance method of visual communication that helps provide users with context. The icon set Jamf uses is based on the **Simple Line Icon Pro** set and has been updated to this current style. Each icon is available in any color from the Jamf brand color palette and each icon has a reversed version to work on light or dark backgrounds.
In cases where an existing icon won’t do, a custom icon can be created. When creating a custom icon, constrain the icon to a 64px square box. Additional line work should duplicate the line weights, rounded end-caps, corner radii, and spacing of the source set. Finally, a version of each color should be produced, then that set duplicated and the line color reversed to its lighter or darker format.

Icon with white lines, used for dark backgrounds

Icon with dark lines, used for dark backgrounds

Custom-made icon
Patterns can add a layer of visual interest to otherwise flat designs. Additionally, applying a pattern to a background to break up whitespace and create a more dynamic layout. Typical applications include environmental graphics, photo overlays, call outs, and backgrounds.

Device patterns

Can be scaled proportionally. Pattern should remain fixed in orientation and the devices applied with a same color shade/tints.
Illustrations found throughout jamf.com and other marketing collateral can be used as visual metaphors accompanying content.

Visual metaphor:
- A user taking and completing training courses
- Jamf Connect's "Password sync" feature
- Jamf Pro's "Smart device targeting" feature
Brand Voice

WHAT IS “BRAND VOICE?”
Think of brand voice as our personality. It helps make our brand more genuine, personable, and identifiable or differentiated.

WHY IS DEFINING BRAND VOICE IMPORTANT?
1. A consistent brand voice across all of our channels helps create and reinforce a unified customer experience.

2. A strong brand voice enforces our brand, helping our prospects and customers recognize and engage with us.

Brand Attributes

APPLE TO THE CORE
We were aligned with Apple before the “Apple effect,” and we are still aligned with Apple, and only Apple, because we believe in Apple’s mission and products.

CUSTOMER-FIRST/DEVOTED
From our values (selflessness and continuous self-improvement) to the whole product experience, we strive to improve people’s lives every day... our customers, employees and communities. We do good work to help people be successful, which in turn creates an army of loyalists.
GENUINE HUMILITY
We don’t say we are the best. We strive to be the best for our customers, employees and community through our actions instead of our words.

WE HAVE HEART
Commitment, a deep sense of responsibility—we treat everyone with respect. We believe in helping others.

TECH IS IN OUR BLOOD
We tinker with tech because it is our hobby more than it is our job. And, we tinker because we believe we can always make things better.

Brand Traits: Describes Character, Tone and Language

PASSIONATE
Expressive, heartfelt, action-oriented, all-in

AUTHENTIC
Genuine, trustworthy/honest, direct, personal, humble, transparent

SPIRITED
Engaging, playful, fearless, enthusiastic, quirky
### Written Style Guide

#### BRAND VOICE, ATTRIBUTES, TRAITS

<table>
<thead>
<tr>
<th>VOICE CHARACTERISTIC</th>
<th>DESCRIPTION</th>
<th>DO</th>
<th>DON'T</th>
</tr>
</thead>
</table>
| **Passionate**       | We are passionate about helping organizations succeed with Apple. | Use strong verbs  
Be positive  
Be champions for Apple  
and our customers | Use passive voice  
Use “will” or “can”  
Don’t bash other providers or technologies |
| **Authentic**         | We are going to give you the tools to make your Apple initiative successful, but a tool isn’t a catch-all. Any initiative requires planning, etc. We won’t feed you a bunch of bull. | Use real examples  
Write like a human  
Own any issues or mistakes  
Show how we help | Use industry or marketing jargon  
Overpromise  
Oversell the product |
| **Spirited**          | We are a smart company with smart people, but we don’t take ourselves too seriously. We have a fun culture, and we want that to come through in our brand. | Use analogies  
Be playful  
Use colorful illustrations or examples | Be too casual or obscure  
Be cheesy or used car salesman-like |
