

Move to Jamf Pro

Challenge

According to Gartner, two out of every three organizations that have a Mobile Device Management (MDM) tool in place are not satisfied and looking to leave. Are you one of them? Whether your current vendor doesn't provide the support you expect or you simply require a more robust tool, switching MDM providers doesn't have to be overwhelming or painful. If you're considering a move to Jamf Pro, you might need some help navigating the process and finding success.

Solution

Our seasoned Field Services team will guide you through setting up your brand new management tool, customized for your environment, and then help design the path to bring your devices over. Paired with help from our best-in-industry Support team, we will make your MDM transition easy.

Phase One	Phase Two	Phase Three

Why consider Jamf in the first place?

Jamf is different than other MDM solution providers. More than 93 percent of customers who choose Jamf, stick with Jamf.

Here's why:

We are exclusively dedicated to Apple and helping organizations succeed with Apple. We understand Apple to its core and have mirrored the focus on user empowerment in our device management software.

We built Jamf Nation, the largest Apple IT management community in the world.

We preserve the native Apple experience and integrate with all Apple applications and services, including the Volume Purchase Program, Device Enrollment Program, Apple School Manager, the Classroom app, and AppleCare, so users can take full advantage of Apple and the intended Apple experience.

We empower more than three million students with Apple technology around the world, including six of the top 10 U.S. school districts and nine of the top 11 U.S. ranked universities.

We have offered zero-day support for all Apple releases for over a decade, ensuring customers can take advantage of new Apple technology as it becomes available.
